Slotted Tubing Systems

WALL CHANNEL

A) The aluminium extrusion is the basic element of the FLEXIWALL system which allows for an infinitely positioning of uprights.

- The uprights (B) are simply bolted on to a sliding, threaded plate that slides into the extrusion. Once the upright is fastened onto the wall channell, the bottom leveler (C) adjusts so that most of the load bearing is transferred to the floor.

- The wall spacer (D) holds the upright parallel to the wall and allows for it to be installed over existing skirtings. IMPORTANT: Wall channel should be screwed directly onto wall studs on framed wall constructions.

AP5401 - Length - 3700mm - Mill finish.

AP5401P/C - Length 3700mm
Powdercoated to any colour of your choice.

HEAVY DUTY UPRIGHT

51mm x 25mm tubing with 6mm wode slot. Allows for side by side placement of brackets. Pitch 25mm.

AP5420 - 2400mm high
Available in raw steel (RAW),
Chrome (CHR), Satin Chrome (SC)
or powdercoat to your specification (P/C).

AP5421 - upto 3600mm high - these are manufactured to your specific height. Supplied with 1 x channel mounting bracket welded to back of upright at 2300mm A.F.L (unless otherwise specified). Available in raw steel (RAW), or powdercoat to your specification (P/C).

Heavy duty uprights are also available with panel channels for plain melamine or PLANKWALL infill panels - see p.B3.

2300mm

PANEL MOUNTING BRACKETS

AP5422 - 2 piece bracket set - supply only. (We can supply you a complete kit with uprights and timber panels with fitted brackets - enquire for pricing).

WALL

AP5401 - Wall Channel

AP5422

18mm Thick Panel

AP5420 - Heavy Duty Upright

FLOOR-CEILING POSTS

Our new floor-ceiling system provides additional scope for the Flexiwall system. The standard aluminium wall channel is fixed onto the ceiling, while a special sliding bracket allows for a quick and simple fastening method. Height adjustment is obtained by means of a leveller on the bottom of the post which fits into a special floor -mounted plate.

Uprights are available in chrome or powdercoated to your specified colour. They are slotted on one or both sides of the tube to provide full merchandising capabilities in a store window or dividing wall application.

You will use the Flexiwall floor - ceiling posts in store windows giving you full merchandising capability for internal dividing walls.
The use of the heavy duty aluminium track allows this system to be safely used on suspended ceilings by attaching to the ceiling 'T' bar grid.

MOUNTING KIT

Includes:
- sliding bracket with fastening plate and screws
- threaded tubing insert and leveler
- floor - mounting plate

AP5405

TOP DETAIL   BOTTOM DETAIL

SLOTTED TUBING

51mm x 25mm tubing with 6mm wide slots to allow for side by side placements of brackets.

AP5255/6 - 1800mm
AP5255/7 - 2100mm
AP5255/8 - 2400mm
Available in Chrome (C), Black (B) and White (W)

CONCEALED SLOTTED STRIPPING

Our concealed steel wall stripping allows you to create functional walls without the visible distraction of standard slotted stripping.

- Can be used with melamine panel infills for a range of decorative effects or flushed-in plasterboard so that the strip becomes virtually invisible.

- Can be installed directly to stud wall before plasterboard fixing with a 4mm wide space in between - concealed stripping simply attaches directly onto the studs with the space between to allow for the brackets to slot into.

- Concealed steel stripping offers superior strength for all fixture applications, especially where extra load bearing is anticipated.

- When used with 18mm melamine, various colour panels can be interchanged to create a backdrop than can change according to your requirements.

AP5430/4 - 1200mm Length
AP5430/8 - 2400mm Length
Pitch 25mm.

HEAVY DUTY UPRIGHT WITH PANEL CHANNEL

51 x 25mm tubing with 6mm wide slots for side by side bracket placment. Pitch 25mm. Channels can be attached to one or both sides of upright for holding plain melamine or PLANKWALL panels. Channel may be powdercoated to match colour.

AP5425/1 - 2400mm high with 1 channel. Specify LH or RH end.
AP5425/2 - 2400mm high with 2 channels.
Available in raw steel (RAW), chrome (C) or satin chrome (SC) slotted tube with powdercoated (P/C)

AP5426/1 - Custom height of up to 3600mm with 1 channel. Specify LH or RH end. Specify height.
**AP5426/2** - Custom height of up to 3600mm with 2 channels. Specify height.
Available in raw steel (RAW) or powdercoated (P/C).

SLOTTED 'H' RACK

SLOTTED 'H' RACK

A totally versatile, free-standing merchandiser. Heavy-duty slotted steel frame in a choice of popular finishes. Slotted end frames to give all-round merchandising capability. Can be merchandised with our complete range of FLEXIWALL accessories – shelving, hangrails, facouts, baskets, etc...

AP5555C Bright Chrome

AP5555SC Satin Chrome

AP5555B Black

Overall size: 1275mm (L) x 625mm (W) x 1200 (H).

INFILL PANELS

For complete merchandising flexibility, we can provide a complete range of infill panels for both decorative and functional purposes. Choose from the following options:

MESH PANELS (only available on end panels)

Allows you to display hangsell, etc...on ends while still maintaining open, see through stand.

AP5556 - Complete rack, including 2 x mesh infill panels. Overall size - 1275mm (L) x 760mm (W) x 1200mm (H)

CASTORS (Set of 4)

Heavy-duty twin-wheeled swivel castor. 2 castors have wheel locks. Thread size 3/8".

AP5054/4

MELAMINE INFILL PANELS

Upgrade your rack with timber panels to create a fixture that will enhance the merchandise. Available in our full range of standard colours in plain or grooved panels. Panels are retained in a top and bottom channel that is fixed to the rack.

Plain Panels
AP5557
Please Note:
Panels are priced individually, i.e. each section. Order as many as your require per each rack. For example, you may wish to have the 2 centre panels with infills and leave the ends open.

Panel pricing includes installation of top and bottom channel.

Slatwall Panels (for ends only)
AP5567
(including aluminium inserts)

STRAIGHT SHELF BRACKETS

Pitch - 25mm.

AP5258 - 150mm (L)   **AP5262** - 350mm (L)

Basket height - 220mm.

BASKET DIVIDERS
AP936 - 300mm to suit AP931.
AP938 - 400mm to suit AP933.
Available in chrome finish.

BRACKET
AP940L
AP940R } Pitch - 50mm.

AP941L
AP941R } Pitch - 25mm.
Available in chrome finish.

MINI LADDER

The MINI-LADDER system offers you an appealing architectural stucture in wall mounted or free-standing configurations, allowing exceptional versatility of arrangement combined with the strength of welded steel construction.

One of the key benefits of the MINI-LADDER system is the ability to accept most Plankwall accessories, increasing your design flexibility while allowing you to draw on existing inventory of standard fittings.

You can select from the standard Bright Chrome finish or alternatively we can supply the Raw steel finish for custom powder-coating to you specified colour. Your MINI-LADDERS can also be supplied with timber cladding in genuine Tasmanian Oak Timber with a durable clear lacquer finish for an upmarket presentation.

The MINI-LADDER system utilises the Flexiwall aluminium wall track to allow uprights to be positioned without drilling new holes into the wall.

WALL UPRIGHT

Overall height - 2400mm with wall-mounting brackets for aluminium wall track and levellers onto the floor.

AP5440
Available in chrome (C) or powdercoat (P/C) to specification.

FREE-STANDING POST

On weighted metal base. Use singly or in multiple joined with shelving, hangrails, etc. Overall height - 1800mm. IMPORTANT NOTE: Free-standing posts should have evenly distributed load on either side.

TIMBER UPRIGHTS

Overall height - 2400mm with wall-mounting brackets for aluminium wall track and levellers onto the floor. *Genuine Tasmanian Oak timber with clear lacquer finish.

AP5448
With powdercoated Mini Ladder (specify colour).

AP5449
With chrome Mini Ladder.

AP5111
Available in chrome (C) or powdercoat to your specification (P/C).

TIMBER POSTS

AP5114
With chrome finish post.

AP5112
With powdercoated post (specify colour).

1-PIECE CROSSBARS

Extends 60mm from face of upright.
38 x 13mm tubing. Pitch - 25mm.

AP5227 - 600mm (L)

AP6417

LEG BRACKET

Heavy steel construction with locking feature the secures leg to upright. Use 4 legs to create free-standing poles.

Single leg on pole
(used for certain wall mounting applications)

Four legs on pole
(used for free-standing poles, etc...)

Double legs on pole
(used for tables, gondolas, etc...)

AP6255
Indivdual leg with locking bracket and screws. Available in raw steel (RAW) or powdercoated to specification (P/C).

TIMBER INFILL

18mm thick melamine panel for gondola.

AP6382 - 1135mm (W) x 1195mm (H)
Available in standard colour range
- specify colour.

GONDOLA TUBING

Slotted tubing with welded bottom threaded cap for adjustable foot or castor.

AP6258 - 1270mm
Available in raw steel (RAW)
or powdercoat to specification (P/C).

GONDOLA TOP & BOTTOM CANNEL

To suit 18mm thick panel for tubing at 1200mm centres.

AP6256T

AP6256B

Available in raw steel (RAW)
or powdercoat to specification (P/C).

PERFORATED INFILL PANEL

Decorative perforated metal panel
mounts onto threaded plates on the
shelf and crossbar.
Size - 820mm (W) x 1250mm (H).

AP6155
Available in your selected
powdercoat colour

CROSS-BAR

With threaded holes for attaching
perforated panel. Designed to fit
between uprights at 900mm centres.

AP6165
Available in your selected powdercoat colour (please specify).

SLOTTED UPRIGHTS

60mm dia welded "T" leg with slotted
upright tubing. Base bar has threaded
inserts for 3/8" castor or leveller
attachment.

AP6150 - 800mm (W) x 1300mm (H)
AP6151 - 500mm (W) x 1650mm (H)
Available in your selected powdercoat colour
(please specify).

SIGNAGE BRACKET

Fits inside 60mm dia tube, has channel
to take Ali-info frames to display
signage. Channel - 200mm long with
grub screws to allow for tightning onto
frame.

AP6166
Available in your selected
powdercoat colour
(please specify).

MERCHANDISING END FRAME

'U' Shpaed frame to mount onto the pole for hangsell
merchandising or for an extra shelf. Clever rounded design protects
the merchandise when it is on the end of a gondola.
Size - 900mm x 300mm.

AP6170

AP6170
with display prongs
(AP6210-3)

**AP6170 &
AP6216**

Available in your selected powdercoat colour (please specify).

CENTRAL SHELF

Perforated metal construction with
bullnosed front edges. Designed to
go in between uprights at 900mm
centres. Has centre stiffening rib
with threaded holes.

AP6160 - 830mm x 400mm

POLAR 60 TABLE

POLAR 60 Table components shown with optional castors and additional merchandising shelf - **AP6363** (p.B17) & **AP6752** (p.B19).

TABLE BRACKET

Fits into top of slotted tube, screws to underneath of table top.

AP6405
Available in raw steel (RAW) or powdercoat to specification (P/C).

TABLE TOP

AP6458 - Specify colour.
Available in most standar ADP colours.

POLAR 60 SLOTTED TUBE

Height - 770mm. Includes floor leveller.

AP6258 - 2 required per table.
Available in raw steel (RAW) or powdercoat to specification (P/C).

PANEL CHANNELS

To suit 18mm thick panels. Ideal for supporting double-sided grooved PLANLWALL panels between POLAR 60 uprights.

AP6260 - Pair of channels. 1195mm (L).
Available in chrome finish.

GONDOLA TOP & BOTTOM CANNEL

To suit 18mm thick panel for tubing at 1200mm centres.

AP6256T

AP6256B
Available in raw steel (RAW) or powdercoat to specification (P/C).

PANEL CHANNELS

To suit 18mm thick panels in between POLAR 60 uprights.

AP6262 - Set of 4 channels. 1095mm (L).
Available in chrome finish.

INFIL PANEL (optional)

18mm thick melamine panel -
1135mm (W) x 395mm (H).

AP6383 - Specify colour.
Available in standard ADP colours.

Available in chrome finish.

WIRE SHELF FRONT

45mm high retainer for timber shelves.
Fits into pre-drilled holes in shelf.

AP6322 - 600 x 45mm
AP6323 - 900 x 45mm
AP6324 - 1200 x 45mm
Available in chrome finish.

PERFORATED METAL SHELVES

Bolts onto Oval Tube Hang rails (above).
Allows for combining a display shelf with hang rail.

AP6215 570mm x 230mm
AP6216 870mm x 230mm
Finish: Chrome

AP6226 + AP6216

WIRE SHELF DIVIDER

Fits into pre-drilled timber shelf.
Size - 300mm (L) x 220mm (H).

AP6320
Available in chrome finish.

The wire shelf fronts and dividers above fit into drilled holes into any timber shelf. We can provide you with pre-drilled holes in your selected shelf. Simply select your shelf, add the pricing of the drilling below and purchase the required quantity of shelf fronts and dividers.

AP6332 - Drilling for 600 x 400mm shelf
AP6333 - Drilling for 900 x 400mm shelf
AP6334 - Drilling for 1200 x 400mm shelf

Pre-drilling of shelves allows for adjustable divider spacing at 50mm increments.

GLASS SHELF SUPPORT

Clips onto oval tubing for supporting a glass shelf.
AP6201 (sold individually)
Finish: Chrome with clear glass cushion

WIRE SHELF W/LIP

Has brackets to attach to the shelving brackets on p. B17.
Lip height - 35mm.

AP6342 - 600 x 415mm
AP6343 - 900 x 415mm
AP6344 - 1200 x 415mm
Available in bright silver powdercoat finish.

GLASS SHELF

Another way to combine a display shelf with hang rail.
AP6214 565mm x 230mm   **AP6218** 865mm x 230mm

Glass shelf only – Order oval tube hang rails (#AP6225/6) and glass shelf supports (#AP6201) separately.

STRAIGHT FACEOUT

For POLARIS uprights. Oval tube. Pitch - 50mm.

AP6478/12 - 300mm
AP6478/16 - 400mm
Available in chrome finish.

SHELF BRACKET

For POLARIS uprights. For use with circular shelves.
2 piece design including suction cups for securing glass.

AP6467
Available in chrome finish.

WATERFALL FACEOUT

For POLARIS uprights. 7 pin, 300mm long. Oval tube. Pitch - 50mm.

AP6476
Available in chrome finish.

CIRCULAR GLASS SHELVES

Use with AP6467 bracket for mounting onto POLARIS uprights.
Size - 400mm dia.

AP6468

WATERFALL FACEOUT

For POLARIS uprights. 10 pin, 450mm long. Oval tube. Pitch - 50mm.

AP6479
Available in chrome finish.

SHELF BRACKET

For POLARIS upright. For use with melamine shelf.
Screw attachment.

AP6466
Available in chrome finish.

STEPPED FACEOUT

For POLARIS uprights, Overall length 400mm. Oval tube. Pitch - 50mm.

AP6477
Available in chrome finish.

MELAMINE SHELF

Use with AP6466 bracket onto POLARIS
uprights. Size - 350 x 270mm.

AP6469
Available in standard colour range - specify colour.

CURVED HANGRAIL

For POLARIS uprights.
Overall length 500mm Oval tube.
Pitch - 50mm.

AP6475
Available in chrome finish.

SLOPING METAL SHELF

60° Sloping metal shelf for POLARIS Upright, for
single shirt display, books etc.
Size - 270mm (W) x 350mm (H).

AP6470
Available aluminium grey finish.

MOUNTING BRACKETS

For mounting cabinets in front of POLARIS uprights.
Use 4 brackets per cabinet.

AP6238 - Sold individually.
Available in raw steel (RAW), chrome (C) or powdercoat finish (P/C)

CENTRAL STRAIGHT BRACKETS

For mounting cabinets and shelving in between POLARIS uprights.

AP6421 - Sold in pairs.
Available in chrome (C) or powdercoat finish (P/C).

CENTRAL SLOPING BRACKETS

For mounting shelving in between POLARIS uprights.

AP6424 - Sold in pairs.
Available in chrome (C) finish.

PERFORATED METAL SHELF

Square punched holes with bullnose front edge.
Pitch - 50mm

AP6250 -   900mm (L) x 300mm (W)
AP6251 -   900mm (L) x 400mm (W)
AP6253 - 1200mm (L) x 300mm (W)
AP6254 - 1200mm (L) x 400mm (W)
Available in raw steel (RAW) or
powdercoat finish (P/C).

THREE-DRAWER MODULE

AP6444/2 - 600mm (L) x 450mm (W) x 450mm (H)
AP6444/3 - 900mm (L) x 450mm (W) x 450mm (H)
AP6444/4 - 1200mm (L) x 450mm (W) x 450mm (H)

CUPBOARD MODULE

With hinged doors.

AP6448/2 - 600mm (L) x 450mm (W) x 450mm (H)
AP6448/3 - 900mm (L) x 450mm (W) x 450mm (H)
AP6448/4 - 1200mm (L) x 450mm (W) x 450mm (H)

TIE UNIT

Open front pigeon holes with
solid back 7 compartment
wide x 7 high.

AP6449 - 900mm (L) x 200mm (W) x 900mm (H)
Specify melamine colour.

SHIRT/FOLDED KNITWEAR UNIT

Open front pigeon holes with solid back 3 compartment wide x 3 high.

AP6450 - 900mm (L) x 400mm (W) x 900 (H)
Specify melamine colour.

SHELF BRACKET

2-position hook for horizontal display or 20° downslope.

AP6359 - 200mm (pair of brackets)
AP6361 - 300mm (pair of brackets)
AP6363 - 400mm (pair of brackets)
Available in chrome finish.

SHELVING SUPPORTS

Support rails for glass shelves. These mount onto shelf brackets.

AP6352 - 600mm (pair of supports)
AP6353 - 900mm (pair of supports)
AP6354 - 1200mm (pair of supports)
Available in chrome finish.

STRAIGHT SHELF BRACKET

AP6365 - 500mm (pair of brackets)
Available in chrome finish.

SHELVING SUPPORTS

Heavy duty support rails for melamine shelves. These mount onto the shelf brackets.
AP6355 - 900mm (pair of supports)
AP6356 - 1200mm (pair of supports)
Available in chrome finish.

## SLOPING SHELF BRACKET

2-position hook for 45° or 60° downslope.

AP6367 - 400mm (pair of brackets)
Available in chrome finish.

DECORATIVE SHELVING BRACKETS

Low profile shelf bracket for screw fixing timber shelf or attaching glass shelf with aluminium profile (see p. B20).
AP6372 - 180mm (pair of brackets)
Available in chrome finish.

SLOPING SHELF BRACKET

2-position hook for 60° or 75° downslope.

AP6369 - 400mm (pair of brackets)
Available in chrome finish.

DECORATIVE SHELVING BRACKETS

2 position hook for horizontal display or 20° downslope.

AP6373 - 350mm (pair of brackets)
Available in chrome finish.

BOOKSHELF BRACKETS

2-position hook for horizontal or upslope display.

AP6370 - 200mm (pair of brackets)
Available in chrome finish.

AP6374 - 300mm (pair of brackets)
Available in chrome finish.

BOOKSHELF BACK PANEL

Sheet-metal back panel for bookshelf brackets.

AP6371 - 900mm x 110mm
Available in chrome finish.

OVAL TUBING

30mm x 15mm.

AP6198 - 3000mm
Available in chrome finish.

SHELF SUPPORTS

Brackets for attaching
glass shelf to brackets.

AP6217 - Set of 4 brackets
Available in chrome finish.

OVAL TUBING END CAP

With raised top to retain hangers.

AP6200
Available in metallized chrome plastic.

SHELF SUPPORTS

Brackets for attaching 18mm thick
timber shelves to brackets.

AP6199 - Set of 4 brackets
Available in chrome finish.

CROSSBAR BRACKETS

For variable attachment of oval tubing.

AP6219 - 75mm
(pair of brackets)
Available in chrome finish.

OVAL TUBE SUPPORTS

For mounting hangrail in between POLARIS uprights.

AP6195
Available in chrome finish.

HANGRAIL BRACKETS

For variable attachment of oval tubing for side hanging.

AP6220 - 270mm (pair of brackets)
AP6220A - 330mm (pair of brackets)
Available in chrome finish.

OVAL TUBE SLEEVES

Covers ends of hangrails on AP6195brackets above.

AP6196
Black plastic.

HANGRAIL/SHELF BRACKETS

For variable attachment of oval
tubing combined with a timber
or glass shelf using shelf
supports above.

AP6223 - 435mm (pair of brackets)
Available in chrome finish.

TICKET FRAME CLIP

Clips onto oval tubing.
Use with ticket frames in
PLANKWALL section p.14.

AP6197
Clear plastic.

INJECTION-MOULDED SHELF

The new plastic shelf in a frosted transparent finish provides exciting merchandising possibilities. Moulded in one piece plastic with strengthening ribs - virtually unbreakable.

AP6336 - 610mm x 330mm
AP6337 - 1220mm x 330mm
AP6338 - 1220mm x 380mm

GLASS SHELF BRACKET

Beautiful slimline bracket fastens onto glass shelf with grub screws underneath for a secure fixing. Pitch - 50mm.

AP6232 (Sold in pairs)
Available as raw steel (RAW)
or powdercoated to specification (P/C).

ALUMINIUM TREADPLATE SHELF

Aluminium shelf with raised treadplate pattern providing the classic industrial look.

AP6326 - 600mm x 400mm
AP6327 - 900mm x 400mm
AP6328 - 1200mm x 400mm

ALIAS WALL SYSTEM

- The ALIAS system provides some exciting opportunities for free-standing or wall-mounted merchandising. Based on a system of concealed, slotted aluminium wall strips, we can provide you with a complete system with infil panels in plain melamine finish or PLANKWALL panels for additional merchandising flexibility.

- Aluminium strips can be mounted directly to the wall with infil panels mounted on with a hook-on system for an easily interchangeable back drop for your product display. This opens up some amazing concepts using lifestyle graphics to sell products with all the benefits of a fully functional display system.

- ALIAS slotted wall strips can also be attached to the back of a melamine panel and this panel then attaches to the wall with the same hook-on fitting. This method allows for faster installation as the wall strips don't require individual wall-fixing.

- A flat-pack free-standing gondola completes the versatility of the system while providing a harmonious display configuration.

ALIAS WALL SYSTEM

SINGLE SLOT CENTRE PROFILE

Pitch - 50mm.

AP6500 - 2400mm
Mill finish aluminium.

SINGLE SLOT CENTRE PROFILE

Pitch - 50mm With extra lip - designed for retaining panels without clips. Requires groove in side of panels using slotting cutter.

AP6600 - 2400mm
