SPOT DISPLAY SYSTEM

- SPOT is a unique display system representing the ideal solution to many situations in the field of modern point-of-sale.
- Its minimalist appearance and custom placement options ensure that the system is eminently suitable for any up-market retailer.
- SPOT's innovative concept involves the placement of chrome-plated bushings into decorative MDF panels. This special system, which allows for a very flexible layout of accessories, is ideal for both vertical and horizontal layouts, including gondolas, windows and small tables.

6 PANEL FITTING - ROUND**AP5700****PANEL FITTING - SQUARE****AP5705****COVER CAP**

For square fitting.

**AP5706****WALL PANELS**

Pre-machined 18mm thick melamine panels in a range of convenient sizes. Order panel fittings, wall-mounting brackets and end caps separately. 'SPOT' wall panels are available in the full range of ADP standard melamine finishes.

**AP5711**

'FLY'

- FLY is an innovative system of suspended metal frames. The frames are of open design which allows you to enhance the architectural features of the point-of-sale location.
- FLY can be wall mounted or mounted in a floor-ceiling situation and also available in free-standing gondola configuration to cater to a wide range of display situations.
- FLY is presented in an easy to read format for you to select the appropriate accessories or contact our design staff for a specific quotation on your needs.

PUC SYSTEM

- The PUC system is a discreet yet highly functional display system that is designed to emphasise your merchandise.
- Individual PUCs can be positioned independently at any height or spacing on any solid board material or metal frame.
- Accessories have a special notched backplate which simply slides over the machined PUC, allowing for quick and effective merchandising.
- The simplicity of attachment allows for the system to be used in a number innovative applications.

Notched backplate fits over metal 'PUC' fitting.

PUC FITTING

Solid steel machined fitting
- 38mm dia. x 16mm deep.
Simple installation only requires
2 off 6.5mm dia. holes at 25mm
between centres. Fastens from
behind the panel with screw and
plate provided.

AP5130

LINGERIE FACEOUT

12mm Dia tube with 25mm front disc Length - 300mm.

AP5124

Available in chrome finish.

FACEOUT

Can also be used as a shelf bracket
with front retaining lip.

AP5120/06 - 150mm (L)

AP5120/12 - 300mm (L)

Available in chrome (C) or satin chrome (SC) or black (B).

STEPPED FACEOUT

Overall length - 400mm.

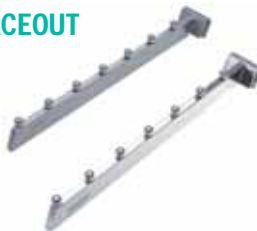

AP5123

Available in chrome (C)
or satin chrome (SC).

WATERFALL FACEOUT

7 ball stop. Length 400mm.

AP5121

Available in chrome (C)
or satin chrome (SC).

RISER WATERFALL

Extends 200mm high, sloping arm 300mm long with 6 cube stops.

AP5129

Available in chrome finish.

EXPO-POLE

EXPO-POLE is a unique and versatile system that is ideal for temporary and permanent exhibits and store displays. Telescopic aluminium poles tension between floor-ceiling from 2.5mtr to 3.6mtr with no fastening necessary (on lighter weight displays), allowing you to setup a display with minimal time and disruption to your store operation.

Fittings clamp on to the pole at any height and you can then hang your choice of accessories off these, allowing you unlimited flexibility for attaching banners, hangrails, shelving, etc...

Standard top

Optional

Floor-Ceiling Pole - Telescopic

AP6480 - For ceiling heights 2.5 - 3.6mtr.

Available with either top mounting (above).

Wall-Mounted Pole - Non-Telescopic (not pictured)

AP6495 - 2400mm high - Attach to wall with 2 x AP6485 brackets & 2 x AP6481 Octopus clamps.

SEE FURTHER SELECTION OF ACCESSORIES - PAGE E6

OCTOPUS CLAMP

Slides apart to fit over pole and tightens securely at your desired height. Allows for attachment of accessories on 3 sides.

AP6481

HANGRAIL

Rectangular aluminium section with fittings on each end to fit onto octopus clamp. Length - 1100mm.

AP6486

WALL-MOUNT BRACKET

Length - 300mm. 2 brackets recommended per upright. Attaches onto Octopus connectors.

AP6485

Cross-section of aluminium-screw flute allows for mounting of other brackets etc.

SHELF BRACKET

Aluminium bracket for use with 8mm thick glass or acrylic shelf.

AP6490

SPRING CLAMP

Clear plastic spring clamp for attaching graphics, etc.

AP6485

SHELF BRACKET

Rectangular aluminium section. Length - 300mm.

AP6491
