Pharmacy 4 Less Marrickville Metro

CASE STUDY

Fitting a fast-growing pharmacy brand into one of Sydney's most design-led retail precincts

Client	Pharmacy 4 Less
Location	Marrickville, NSW
Project Type	Pharmacy Retail
Scope	Gondola bays, wall bays, end bays, display accessories

Opening as part of the Marrickville Metro shopping centre redevelopment, the store needed to hold its own inside a centre known for hip, modern interior design, no small ask for a discount pharmacy format.

The Fit-Out

- ADP S-Mart Pharmacy Gondola Bays
- ADP S-Mart Wall Bays
- ADP S-Mart End Bay with Side Wings
- Data strip, pegboard hooks and other display accessories

The Result

The complete fixture package gave Pharmacy 4 Less, now a brand with over 100 stores nationally, a store presentation that matched the calibre of its surroundings.

Why It Stands Out

A clean, professional pharmacy fit-out built for clarity, capacity and practical merchandising in a design-led precinct.

> Great quality and look, but most of all is the support this brand gave us and how fast they are with their responses is genuinely the best we have experienced. We would highly recommend ADP.
